 - Nominations were discussed by the board – finalists will be sent a questionnaire to be completed by a specific date and the membership will be sent a survey monkey to submit their final vote.
- OSAA Student Activities Committee Report
 - The DDCA board presented proposals discussed at the Winter Meeting with OSAA.
 - Proposal to change time limits for dance and drill teams to 3-5 minutes was approved, the proposal for all SHOW teams to have a maximum of 50 dancers was approved, and the proposal that all teams that receive a trophy must also qualify for second round was approved. These changes will be in effect for the 2010-2011 dance team season.
 - OSAA did not pass the proposal to add additional divisions.
 - Proposals still active and continuing through the OSAA approval process: 1/2/3A as a standing division with a minimum of five teams, dropping the number of teams needed in 4A to create a large and small to five, presetting large/small division numbers for 5A and 6A. The OSAA requested a rewrite on the proposal to preset numbers. The DDCA board updated the proposal to contain the following language small will be 10 to 20 performers; 21 to 50 performers will be considered large. If a division fails to have 8 teams, that division will be combined with the same performance division of the opposite

classification (5A large with 6A large or 5A small with 6A small). This is the same process used in the OSAA State Cheer contest. OSAA will discuss these three proposals at the 2/8/2010 OSAA Executive Board Meeting, upon approval this will go to the OSAA State Championship Committee meeting on 5/3/2010 for a final decision.
