

Date: April 1, 2007
To: DDCA Board
From: Technical Judges Committee
Subject: 2007-08 Technical Judges Budget for
DDCA Board

Proposal 2.0: Technical Judges expenses for the 2007-08 season. This budget includes training materials, trainer pay, supplies, and mail expenses to the best of our ability. It does not include the individual competition Tech Judges fees. Competitions will take on this fee for one Tech Judge, while the DDCA funds the expense of the second Judge this season.

Considerations:

- 2.1 DDCA Technical Judges three main trainings for All membership and active Technical Judges. September/October/November 2007 date TBA. Cost will be \$100.00 per training for the instructor.

Total fee \$300.00

Reasoning: All Technical Judges are required to complete a refresher course each year to be certified. All Coaches could benefit from training in all areas to better understand rules.

- 2.2 Tech Judges materials, forms, and mailing costs need to be covered by DDCA since it is a program for the DDCA Membership. All forms, videos, copies, mailing etc.

Approx. cost is \$600.00

Reasoning: Tech Judges serve the Membership and these fees should not come out of an individual or Tech trainer or Commissioner's personal funds.

Ramifications:

- 2.1 DDCA is required by OSAA to follow all OSAA and NFHS rules, and DDCA Technical rules. Someone needs to train and update all DDCA members, Coaches and Technical Judges.
- 2.2 Technical Judges need forms for competition. These forms need to be made, tracked and mailed. Anything that must be mailed by Technical Judges Program (forms, etc) should not come out of an individual's pocket.
